- Storage
- Utility/Misc.

DESCRIPTION:

Describe the proposed uses of the building. If a use of an existing building is being changed, indicate the current and proposed use(s): _____

DEMOLITION: The contractor shall wet down the structure to be demolished as well as the resulting debris as required to minimize the creation of air-borne dust and debris. Demolition work shall not begin until the contractor has established either by way of a hose connected to the public water hydrant or by the use of a water truck on site, a source for wetting down the structure and resulting debris during the demolition process. The contractor must maintain dust control at all times during demolition.
